EXPERIENCE

Frontend developer - SDE1
Mesky Private Limited

📅 Sept 2022 – Ongoing   📍 Remote

Mesky E-commerce Website

- Developed a single page application, where user can easily consult the respective doctor and take suggestions, built the page in such a way that users can interact with the patient by video call and take medicine. also, implemented feedback system where user can give feedback to the doctor.

Delivery Portal

- Created a Delivery Portal for users to efficiently monitor delivery history and manage subscriptions. Provided a comprehensive view of all deliveries, allowing real-time order tracking. Enabled easy management of active subscriptions and necessary adjustments

Rider Portal

- Developed the Ryder Portal using React.js for delivery personnel to manage their tasks efficiently. Included features for viewing detailed lists of deliveries, both completed and pending, with specific order details and addresses. Added real-time updates on order statuses and intuitive navigation for easy access to information.

Frontend developer
Vasmi Group

📅 Feb 2022 – Sept 2022   📍 Visakhapatnam, AP

- Engineered a robust single-page application facilitating seamless consultations between users and doctors, incorporating video call capabilities for real-time interactions and prescription management.
- Designed and implemented an intuitive and user-friendly interface to enhance the overall patient experience and streamline doctor-patient communications.
- Developed and integrated a comprehensive feedback system, allowing users to rate and review their consultations, thereby contributing to continuous service improvement and user satisfaction.

MY PORTFOLIO
